Subject: Need Any Follow-Up to EPA's Response to Oregon's September New Development Submittal?
Date: Thursday, February 06, 2014 9:19:00 AM

Hi Gene,

I just wondered whether Oregon needs any follow-up (such as setting up a conference call) on EPA/NOAA's response to Oregon's September New Development MM submittal. Do you have any questions or concerns regarding our response? If so, would you like me to set up a conference call and would it be on the technical staff level or higher management level?

We are currently preparing our response to Oregon's December OSDS submittal. Would you prefer for us to have a conference call to discuss our thoughts prior to providing you a written response or wait until you have received the written response? Karen requested a conference call and I assumed you would want it held after receiving our written response. Alan Henning and I were discussing this topic and he thought you might prefer to have a dialogue before receiving the written response.

Which works better for you?

Cheers,

Jayne
